The

A virtual private network (VPN) extends a private network across a public network, and enables users to send and receive data across shared or public networks as if their computing devices were directly connected to the private network.

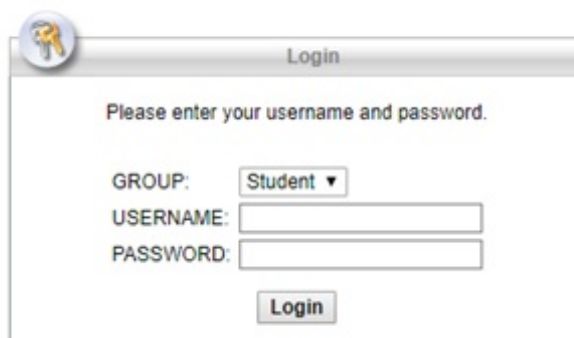

You need to connect to VTC VPN in order to use campus network services. Below procedure described how to install and setup VTC VPN for Windows 7, 8, 8.1 and 10 with Cisco AnyConnect client.

Note: Different Windows OS may have different screen display.

- The details of AnyConnect Supported Operating Systems lists in following link of cisco website.
(https://www.cisco.com/c/en/us/td/docs/security/vpn_client/anyconnect/anyconnect40/release/notes/b_Release_Notes_AnyConnect_4_0.html#reference_DABA1C4FF5CB45F4904B538BAB32749E)
- For technical problems in VPN connection, THEi students may contact ITSO/THEi:
 - Email: thei-it-adm@vtc.edu.hk
 - IT Helpdesk: 5266 4397 (CW) / 3890 8020 (CW) / 5266 4372 (TY)
