RESOURCES FOR SUPPORTING YOUR TEACHING AND LEARNING

MONA LISA: BEYOND THE GLASS

VR APPLICATION

Mona Lisa: Beyond the Glass is the first VR experience presented to the public by the Louvre Museum and is conceived as part of the Museum's seminal Leonardo da Vinci exhibition which commemorates the 500th anniversary of the artist's death in France.

Mona Lisa: Beyond the Glass reveals the latest scientific research on da Vinci's artistic innovation and his painting techniques and processes through exceptional visualization in virtual reality, bringing them to life.

VIVE FOCUS PLUS & VIVE COSMOS (BOTH)

3D Organon VR Anatomy

Category: Science / Health Care

Description

3D Organon VR Anatomy is a medical anatomy software which contains detailed 3D anatomy models of the male and female human body including the Reproductive and Integumentary (skin) systems.

Mona Lisa: Beyond The Glass

Category: Art & Design

Description

Mona Lisa: Beyond the Glass reveals the latest scientific research on da Vinci's artistic innovation and his painting techniques and processes through exceptional visualization in virtual reality, bringing them to life.

360 STORIES

Category: Travelling & Tourism

Description

360 Stories uses engaging 360° content to transport you to the most amazing destinations on Earth. Hear locals tell their stories as they show you around their urban and natural landscapes through photos and videos in virtual reality.

VIVE FOCUS PLUS (STANDALONE VR) ALL-IN-ONE

MasterWorks: Journey Through History

Category: Art & Design

Description

The MasterWorks Museum transports you to four fully explorable environments where you can collect artifacts and learn from archaeologists and scientists as you unravel the mysteries of who built these amazing places and learn about the challenges they face today in a rapidly changing climate.

Main Materials Of Aircraft (Simplified Chinese only)

Category: Engineering / Aviation

Description

This is An introduction to aircraft structural materials. During the introduction, you will also know the reasons for the related manufacturing materials being adopted.

VirtualSpeech - VR Courses

Category: Language

Description

Practice soft skills in virtual reality with the VirtualSpeech app. Scenarios include public speaking, sales pitches, networking, presentations and media training.

VIVE COSMOS (PROFESSIONAL VERSION) LINKED WITH PC

DeoVR Video Player

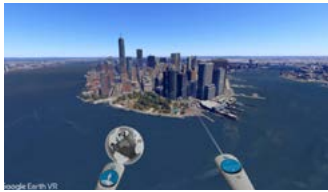

Category: VR Production & Development / Live Streaming

Description
DeoVR is used by developers and websites to playback and stream videos in native applications and WebVR/ WebXR players.

Google Earth VR

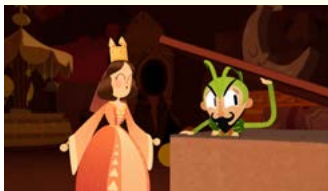

Category: Science / Geography

Description
Google Earth VR lets you explore the world from totally new perspectives in virtual reality.

Google Spotlight Stories: Back to the Moon

Category: Science / Geography

Description
Back to the Moon VR is an animated, interactive short celebrating the artistry of French film director and magician Georges Méliès.

Greenland Melting

Category: Science / Geography

Description
Greenland Melting is a virtual reality experience that introduces and brings educational awareness to the effects that the warming waters of the ocean have on glaciers, specifically in Greenland.

Epic Roller Coasters

Category: Travelling, Tourism, Leisure & Sport / Roller Coasters

Description
In Epic Roller Coasters you'll get the same feeling of a real roller coaster with a high level graphics, physics-based simulation.

Google Spotlight Stories: Age of Sail

Category: Travelling, Tourism, Leisure & Sport

Description
Age of Sail VR is the story of William Avery (Ian McShane), an old sailor adrift and alone in the North Atlantic. When Avery rescues Lara, who has mysteriously fallen overboard, he finds redemption and hope in his darkest hours.

Google Spotlight Stories: Pearl

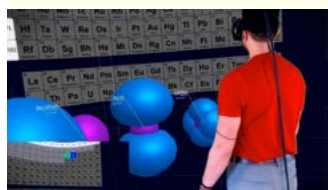

Category: Travelling, Tourism, Leisure & Sport / Emmy Award Winner / Academy Award Nominee / Interactive Storytelling

Description
Google Spotlight Stories presents Pearl in VR. Set inside their home, a beloved hatchback, Pearl follows a girl and her dad as they crisscross the country chasing their dreams. It's a story about the gifts we hand down and their power to carry love.

Sama Learning

Category: Science / Chemistry

Description
Sama's General Chemistry VR course was designed to be used alongside existing class work and can provide valuable educational support for students of all learning levels.

VIVE COSMOS (PROFESSIONAL VERSION)

InCell VR

Category: Science / Strategy / Action

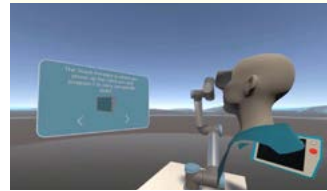

Description

InCell is an action/ racing game with a bit of strategy and science thrown into the mix in a rare and highly unusual microworld of the carefully recreated human cell.

InductVR

Category: Art & Craft / Manufacturing Tools

Description

Workshop inductions for Universities and Vocational Schools. Learn carpentry, welding, 3D printing, and other specialised manufacturing tools in the safety and comfort of your virtual space.

The Lab

Category: Science / Mechanics / Experiment

Description

Set in a pocket universe of Aperture Science, The Lab offers a wide range of ways to enjoy VR, all in one application.

Medicalholodeck

Category: Science / Health Care

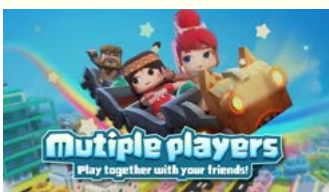

Description

The medical DICOM Viewer and Human Anatomy Lab in Virtual Reality. Medicalholodeck is the platform for medical Virtual Reality and brings the DICOM Viewer and human anatomy labs to Virtual Reality.

Mini World: Block Art

Category: Art & Design

Description

Mini World is a 3D free-to-play sandbox game about exploration, creativity, and start an epic adventure with your friends.

Mission Biotech

Category: Science / Health Care / Biology / Biotech

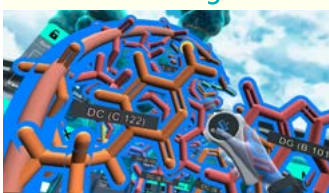

Description

This single-player game teaches middle school and higher students the concepts, procedures, and tools used in a real biotechnology laboratory.

Nanome

Category: Science / Bio-Chemistry / Molecular Design

Description

The Future of Molecular Design - From drug discovery to chemistry class, Nanome is a powerful tool for research and education. Visualize, build, and simulate chemical compounds, proteins, and nucleic acids like never before.

NASA's Exoplanet Excursions

Category: Science / Astronomy

Description

Take VR journeys through the amazing TRAPPIST-1 system of exoplanets and to NASA's Spitzer Space telescope, which played a key role in their discovery.

VIVE COSMOS (PROFESSIONAL VERSION)

Nefertari: Journey to Eternity

Category: Art & History / Architecture

Description

For the first time ever, step inside Nefertari's tomb and immerse yourself in the story of its art, history, construction, and mythology through interactive elements.

Russian Fishing 4

Category: Simulation Game / VR Experience

Description

Russian Fishing 4 is a fishing simulator with RPG elements. There is no story line and the whole process is based on the concept of an open, free to roam and free to play game.

Spider-Man: Far From Home Virtual Reality

Category: Simulation Film / VR Experience

Description

Based on the film, the Spider-Man: Far From Home VR Experience is a fast-swinging, thrill ride through the eyes of your favorite neighborhood Spider-Man.

The Stray Cat

Category: Simulation Game / VR Experience / HKDI Production

Description

Virtual Reality Games Pick up the objects on the ground to protect it, or watch the cute it falls.

神遊敦煌-莫高窟第61窟

Category: Travelling & Tourism

Description

When virtually exploring Mogao Cave 61 in this VR content, the viewer can see the digital restoration of the deteriorated murals and the ruined statues.

Rumii

Category: Remote Teams / Collaboration / Virtual Meetings

Description

rumii is a social-virtual reality space that enables people to collaborate and communicate in one room from anywhere in the world - as though they're all in the same physical location.

Virus Popper

Category: Science / Health Care

Description

Wash your hands and POP the virus! Virus Poppers is a fast-paced educational game about personal hygiene.

Spider-Man: Homecoming - Virtual Reality Experience

Category: Simulation Film / VR Experience

Description

Based on the all-new 2017 film, the Spider-Man Homecoming VR Experience is a fun and thrilling first-person look inside the world of your friendly neighborhood Spider-Man.

The VR Museum of Fine Art

Category: Art & Design

Description

Explore the Second Floor of the Museum! Explore a virtual museum in room-scale VR: see famous sculptures in full, 1:1 scale and see famous paintings without the limitations of glass and security guards.
