Course By Jeff Ansell

Develop your communicating skills and interpersonal influence [\[Link\]](#) 7 hr 46 min

Learning Path

USING VR APPLICATIONS AT LC TO SUPPORT LEARNING

VR applications are important in education in the future.

PHOTO: ENVATO ELEMENTS

Vive Focus Plus (Standalone) All-in-one VR headset and controllers

Vive Cosmos VR headset and wireless adapters

LEARNING RESOURCES AT LC - VR LEARNING CORNER

Vive Focus: There are two stand-alone All-in-one headsets and controllers, Vive Focus, where students can borrow at the Circulation Counter and use at anywhere within the LC.

Vive Cosmos: There are two other top-class VR+AR headsets and adapters, Vive Cosmos, linked to the VR / AR Learning Corner ,s powerful PCs. The equipment starts with some limited educational VR applications where there will be more applications installed by stage.

LC setup the AR / VR Learning Corner to provide students with a rich learning environment.

Learning Commons has been purchasing brand new VR / AR devices, the HTC Vive collection. The HTC Vive provides virtual reality headsets that use "room scale" tracking technology to allow the user to travel in 3D space and to use handheld controllers with motion tracking to interact with the world.

More applications can be found in the VR/AR Learning Corner Featured Catalogue: [\[Link\]](#)

3

2 DAYS VR AND VR DEVELOPMENT WORKSHOP

was held on 13th and 20th March, 2021 with a focus on virtual reality production training.
